

Extract of ONS Construction Statistics Annual Tables: 2019-2020

Size of firm by No. of Employees	2020	Moving Total	% of Total	2019	Moving Total	% of Total
0 (sole proprietors)	36,891			35,226		
1	148,584	185,475	54.2%	116,706	151,932	52.3%
2-3	94,651	280,126	81.8%	81,872	233,804	80.5%
4-7	36,725	316,851	92.5%	33,138	266,942	91.9%
8-13	13,269	330,120	96.4%	11,768	278,710	96.0%
14-24	6,633	336,753		6,072	284,782	
25-34	1,937	338,690		1,872	286,654	
35-59	1,913	340,603		1,878	288,532	
60-79	584	341,187		545	289,077	
80-114	441	341,628		449	289,526	
115-299	573	342,201		591	290,117	
300-599	143	342,344		144	290,261	
600-1,199	58	342,402		59	290,320	
1,200+	54	342,456		54	290,374	
All firms	342,456			290,374		

Notes

1. Output from businesses classified to construction in the Standard Industrial Classification (2007) (Division.Group-Class/Subclass)
2. Values may differ slightly to those seen in the monthly construction output tables due to rounding.
3. Categories with less than 5 firms have been grouped to remain non-disclosive.
4. Table 3.8 was table 3.4b in 2019
5. These firm and employees data are point in time estimates classified in the 3rd quarter of each year on the IDBR.
6. All trades is defined as the sum of all construction based trades classed in SIC 41-43
